PREMIUM CANNABIS  
BY DAVID ORTIZ

I am no stranger to the healing power of cannabis. I work with my partners to carefully select flower that will produce the power and effect that I have always been expected to deliver. Papi Cannabis features a collection of my personal favorites from infused blunts to salves to Dominican Chocolate, and I am proud to share them with you.

- David Ortiz

A handwritten signature in red ink, appearing to read "David Ortiz".

A small, stylized handwritten signature in white ink, possibly reading "Papi".

# SWEET SLUGGERS

Born out of his passion for performance, the Papi premium brand of cannabis reflects David Ortiz's belief in the flow of the flower and its ability to help you live your best life. "Cannabis has helped me relax, sleep better, manage stress, and heal physically," says Ortiz. "I look forward to sharing Papi Cannabis and my personal journey to help people understand all its benefits". Rolled in Fitchburg, Massachusetts at Rev Farms' state-of-the-art facility, Papi sweet sluggers use only the best flower from some of David's favorite strains.

---

**Papi Sweet Sluggers** are made with only high-potency, freshly-ground whole flower. Rolled in a tobacco-free green tea blunt wrap for a smooth taste and even burn, these pre-rolled blunts are powerful and consistent, just like Papi. Available in 1 gram pre-rolled single blunts packaged in a doob tube made of 100% reclaimed ocean plastic or a convenient three-pack complete with a box of Papi Brand matches.

# Papi — Vape, Salve, Infused Blunts and Chocolate

## Swing for the fences with Papi's new Moonshot vape line:

Orange Dreamsicle, Caribbean Chemdawg, Mango Pineapple Haze, Strawnana Dream and Apple Smacks! As you'd expect, these vapes pack a punch of Caribbean flair and flavor to create the perfect effect. Immerse yourself in an array of botanical terpenes like Caribbean Pineapple, Mango Haze, Green Apple, Orange Creamsicle and Strawnana. Get ready for some Tropical transcendence. Whether you're winding up, winding down or simply going with the flow, Papi's got you covered.

# INFUSED SWEET SLUGGERS

Made with only high-potency, freshly-ground whole flower and infused with hash oil. Rolled in a tobacco-free green tea blunt wrap for a smooth taste and even burn, these pre-rolled blunts take our standard Sweet Sluggers to a whole new level.

Coming Soon

# ELBOW SALVE GREASE

Elbow Grease is a potent all-in-one salve crafted with a blend of cannabinoids, terpenes, and activating botanicals for immediate and long-lasting relief. Formulated with organic US grown hemp along with menthol, eucalyptus, arnica oil, and lavender, all in a creamy shea butter, MCT oil, and mango butter base to provide comprehensive anti-inflammatory and soothing effects.

# Mile 62 — Flower and Prerolls

See the world from another perspective 62 Miles up where space begins. Mile 62 is Rev's newest class of grower curated flower that's truly out of this world. Featuring a mix of legendary and unique genetics and undergoing several rounds of pheno-hunting, these cultivars received extra time and attention from seedling to dispensary counter. Mile 62 strains are always hand trimmed, and grower selected for their intense flavors, aromas, high TAC and terpene content.

Each Mile 62 Preroll contains the high-octane flower that you can always expect when you see the Mile 62 logo.

---

**Single Prerolls:** Ready for liftoff. Packaged in a compact plastic carrying tube for convenient consumption, our 0.5g and 1g prerolls are packaged in a Sana Ocean Tube made with 100% ocean-bound and reclaimed ocean plastic that is Oceanworks Guaranteed™ and 100% HDPE (#2 recyclable).

Available in 0.5g and 1g sizes.

---

**3-Pack:** Race to space with our convenient 3pk of 0.5g prerolls. Crack the top of the box and ignite to reach the cosmos.

Mile 62 Melts are high-octane solventless concentrates, skillfully crafted with the same ingenuity and passion that got us to the moon. Building on the painstaking work of explorers and extraction artists risking their freedom before us, the next frontier in dabs is here. Fueled with only the best plants, expect a tasty trip to the cosmos.

---

**Live Hash Rosin:** Created from pressing high-grade bubble hash from single source, fresh frozen whole plant material. This process results in a tasty concentrate that encompasses the full spectrum of terpenes and cannabinoids from the original flower strain. Each batch of live bubble hash is screened by micron grade and hand selected for pressing to ensure a premium end product every time.

---

**Cold Cured Live Hash Rosin:** It takes everything you know and love about Live Hash Rosin and kicks it into hyperdrive. We start by pressing high-grade bubble hash from single source, fresh frozen whole plant material, then jar it up to be stored in a cool environment for over 2 months. Over this time, we monitor the jars and stir any terpene separation. This time and labor-intensive process results in a Live Hash Rosin with a badder type consistency we know you'll enjoy.

---

**Live Traditional Hash:** One-of-a-kind concentrate created using ancient techniques, refined through the years by trailblazers in the hash realm. We start by creating live bubble hash from washing select single source, fresh frozen whole plant material. The live wash is screened by micron grade for quality and freeze dried to remove any moisture. We then take the live bubble hash and hand roll into balls, utilizing a technique created by Hash Master, Frenchi Cannoli. The resulting live temple ball hash can be pulled apart to enjoy in a joint or bowl to boost potency and flavor to new heights.

---

**Live Bubble Hash:** Created from washing select single source, fresh frozen whole plant material. The live wash is screened by micron grade for quality and freeze dried to remove any moisture. This results in a premium live bubble hash that retains the full spectrum of terpenes and cannabinoids of the original strain. Take the potency and taste of your joint or bowl to the moon with this versatile concentrate.

# Ace Weidman's — Prerolls & Session Pouches

Ace Weidman's is a blend of high quality flower derived from popcorn buds that are not quite big enough to be sold as premium flower. This flower contains the same terpene and cannabinoid profile of our best flower and comes from our grow facility in Fitchburg, MA.

## Prerolls & Preroll Packs

Available in half gram and full gram singles and multipacks. Multipack prerolls are packaged in a clean and compact cardboard carrying case for convenient consumption and concealment. Our single prerolls are packaged in a dube tube created from recycled ocean plastic.

## Session Pouches

An economical half-ounce of pre-ground house blend flower. Rolling papers included.

# i am edible — Infused Provisions

*i am edible* is our line of flavorful, medicated edibles. Combining specific cannabinoids for a desired effect along with confectionery expertise, *i am edible* is reliably consistent, easy to dose, and one of the finest assortments of edibles on the market. Features many flavors, seasonal varieties, and strengths.

---

**Fruit Chews:** Finished in a citric acid & sugar coating, *i am edible's* new fruit chew formulation boasts new & improved mouth feel. Chew with ease, chew with these! Each chew is infused with precise doses of Cannabis oil distillate, and are a great choice for a long-lasting therapeutic effect. *Trans-fat free, Gluten free, Vegan.*

---

**Chocolate Bars:** Each bar has 20 easy to separate sections for consistent and accurate dosing. *i am edible* offers silky smooth milk chocolate with premium quality cannabinoid infusions.

CHOCOLATE  
BAR

# Know Your Farm

Through our Know Your Farm initiative, we're committed to consider the supply chains of all our ingredients — everything from when and where it's produced, how it's produced, to its incorporation into the final product. We've partnered with new vendors throughout the world that align with our mindset of taking care of the earth and its inhabitants.

I am edible's sugar producer, Natíve Sugar, regenerates their soil. By focusing on soil health and biodiversity, integrating

sustainability at all levels of their operation, and ensuring social fairness to farmworkers, Natíve's Green Cane Project has been long recognized as the model for sustainability.

Cacao and coffee are destructive industries, and the commodity chocolate industry is rife with child labor. I am edible's partnership with Republica Del Cacao guarantees positivity with every morsel – from the bean to bar!

## FRUIT CHEWS

- Organic sugar from Santo Antão, Brazil
- Fair-Trade
- Gluten free & vegan
- Carbon-neutral sugar

## CHOCOLATE BARS

- Sustainable growing practices
- Supports Farming Communities
- Fully Traceable Cacao
- Made with real cocoa butter-based chocolate

## FORPLAY

**SENSUAL CANNABIS CHOCOLATE**

For Play pairs luscious chocolate with a pharmacist-crafted blend of sensual herbs to elevate performance and pleasure in the bedroom. Experience mind-blowing sex with For Play's unique blend of aphrodisiac herbs and cannabinoids, scientifically designed to enhance stamina, arousal and sensitivity and decrease anxiety. Created for partners of all preferences to make every experience in the bedroom a memorable one... **it's time For Play**

**Arginine - AKG** — Commonly used as a sexual supplement to get “pumped up” and has a gentle vasodilating property that increases blood flow and oxygen delivery.

**Kava Kava Root Extract (Kava)** — Kava Kava has long been used to reduce the stress and anxiety that can get between you and your partner to achieve that peak experience.

**Long Jack** — Plant compound originating in southeast Asia that has been used for boosting sexual performance and libido in both men and women.

**Horny Goat Weed** — is an herb that has been a traditional remedy in China for centuries. It's used to treat low libido and erectile dysfunction.

**Beta-Alanine (B-Alanine)** — Amino acid produced naturally in the body, known to increase performance and endurance.

Give into your Cravings!

## CHOSEN ONE

Preserving the sanctity of dank with an elite lineup of tissue culture grown strains from breeders across the nation. From humble beginnings to your local dispensary, these strains are developed to match the true genetic profile of the one-and-only original strain created by its breeder. Expect nothing but fire from each strain chosen.

*Available in 1/8ths only*

Chosen One has conjured up the west coast's Califari for an epic bag art collaboration to tell the story and discover the personality of these select tissue culture strains by combining great art with the great flower.

**CALIFARI**  
PRODUCE OF MASSACHUSETTS

## TOPICAS

### TOPICAL CANNABIS

Our brand of luxurious massage oils, lotions and creams take a natural approach to wellness by combining the medicinal benefits of cannabis with essential skin care products. Topicas provides temporary relief from soreness, discomfort, and inflammation without the cerebral effects of consuming cannabis. Crafted with a comprehensive approach to total health, our topicals use shea butter and coconut oil to nourish the skin. The combined effects of THC and select botanicals make this a favorite in the medicinal market. Available in 1:1 Meditate, 1:1 Recovery, 2:1 Chill, and 4:1 Cooling Mint CBD.

# REV Farms

Nestled in Central Mass you'll find Rev Clinic's grow, home to some of the most beloved cannabis in the commonwealth. Tended by our team of expert growers through all stages of cultivation, Rev's plants get the care and support they need to flourish into the premium buds you know and enjoy.

Rev Farms includes fresh flower sourced from select partners as well as our own house flower; grown in a state-of-the-art production facility with passion and supported with environmental controls, tried and true agricultural techniques, and sustainable growing practices. Our diverse stable of strains includes patient favorites, up and coming strains, breeder's cut tissue culture varieties as well as winners from rounds of pheno-hunting.

*Available in 1/8ths only*

Designed to capture the forces of nocturnal oracles and falling stars, Astaria is our line of premium sleep products. It's available in a variety of forms, including vaporizer cartridges, hibernation chews and capsules. All Astaria products are thoughtfully crafted using a custom terpene blend, along with THC or CBN cannabinoids for peak performance and a good night's sleep.

---

**Vape Cartridge:** Astaria's proprietary formula targets the underlying issues that limit restful sleep, including: physical discomfort, anxiety, and sleeplessness by delivering psychoactive pain relieving THC, inflammation and anxiety fighting CBD, and sleep inducing CBN. Consumers report falling asleep faster, staying asleep longer, and feeling more rested.

---

**Hibernation Fruit Chews:** Sleep like a bear with our new Astaria Hibernation Fruit Chews! These calming Blueberry Basil Fruit Chews are created with a low dose blend of CBD, THC and melatonin to encourage sleep and promote restfulness. These Fruit Chews will leave you drifting off to sleep among the clouds. Say Good Night to insomnia and workday stress and wake up feeling refreshed.

## mxr

Sublingual tinctures provide patients with a simple and quick dosing method that doesn't involve combustion or consuming sweet confections. Each of our four distinct formulas are a mixture of isolated cannabinoids, cannabis-derived terpenes, and a blend of homeopathic herbs to achieve a range of desired effects.

**Propel:** Our first MXR tincture is Propel - which is a high energy THC formulation. Propel's ingredient trifecta for it's uplifting effect includes: Lemon and basil essential oils, Limonene (citrus terpene found in fruit peels) and Super Lemon Haze terpene profile (high in humulene, b-caryophyllene, and limonene).

**Harmonize:** Harmonize: Utilizing a 4:1 ratio of CBD to THC, Harmonize is designed for focus and relaxation. Perfect for yoga, meditation, and overall wellness, this unique blend contains CBD and essential oils blended for relaxed yet aware effects. Along with CBD, this tincture features a Digestive Blend and Dog Walker terpenes.

**Focus:** (Formally Quench) A 1:1 THC/CBD ratio created to add focus and fun to any situation. Perfect for socializing with friends, good conversation, creative endeavors, or a round of golf, where some have found it to be the ultimate "swing oil." This MXR contains orange essential oil, pinene, limonene and a Sour Diesel strain terpene profile.

**Sleep:** It's something we can't live without, and so is this dreamy potion. A robust dose of CBN (sleep inducing) makes this tincture a must have for restless nights starting at the alarm clock. Packed with citrus bliss (citrus bliss: orange, lemon, grapefruit, tangerine and clementine peels with bergamont and vanilla bean absolute) and a Blue Dream strain profile, there's no better way to get some shut eye.

**Swing Oil:** Find the perfect addition to your lineup of Summer products! This seasonal drop is a hole-in-one for the golfer who enjoys a little green on the green. Relax your body and your mind. See that dimpled sphere like never before. Balance and tempo are yours for the taking. Reach back, trust your swing and hit it on the screws like you know you can.

# MXR — Stir It Up Beverage Infuser

## STIR IT UP

CANNABIS INFUSED

Rev Clinics and Rev Brands are mixing up the cocktail game with MXR's Stir It Up! This line of rapid onset infused syrups (utilizing Azuca Fast-Acting formulation) are a flavorful pairing of distilled cannabis oil and terpenes to deliver strain specific results in an easy to dose format. Mix with sparkling water for an easy drinking and refreshing cannabis beverage or get creative and design your own mocktail! Available in 3 tasty varieties, Watermelon, Raspberry and Plasmic Cooler (1:1)

---

### Much better value than canned beverages!

- Better value (\$/mg) vs. Canned Beverages in MA by 7 times

### Dosing and storage:

- Make your preferred dose and easily measure different doses as needed
- Choose which type of beverage to infuse
- No storage or refrigeration issues

### Formulation

- Made with organic fair-trade sugar
- Azuca powered for fast-acting effects; formulated for a much quicker onset of 2-15 minutes compared to the standard hour or more of traditional infusions.

# X-Trates — Vaporizer Cartridges and RSO

Our line of high-quality extraction products, this umbrella brand of cartridges, applicators, ready pens and concentrates are designed to deliver superior quality to both budget-minded and refined cannabis users.

---

**X-Trates RSO:** Rick Simpson Oil (RSO) is a full spectrum extract of cannabis oil. It is a highly concentrated cannabis oil that contains all compounds from the cannabis plant in the extraction. It is also commonly known as Rick Simpson Oil, named after Rick Simpson who developed the product that helped cure his skin cancer. RSO has been reported by patients to help treat a variety of debilitating conditions such as Multiple Sclerosis, Parkinson's, arthritis, cancer and epilepsy. The idea of “whole plant medicine” - utilizing the full spectrum of therapeutic compounds, cannabinoids, and terpenes cannabis has to offer - is what makes RSO stand out from other oils. Whole plant extracts deliver the most powerful entourage effect.

RSO is not for smoking, but can be used as a topical or ingested orally. It is dark in color and often administered via an oral syringe or used in capsules. Due to its tendency to be much stronger than other cannabis oils, it is usually taken in doses no larger than a grain of rice.

---

**X-Trates CO2:** Featuring wide-spectrum cannabinoid extract, our CO2 oil is designed to be effective, flavorful, and economical. Like all of our products, X-Trates is NEVER mixed with propylene-glycol, glycerin, or any other cutting agents.

---

**X-Trates 3D:** Carefully crafted, 3D Pure Distillate vaporizer cartridges feature a highly refined oil containing pure cannabinoids and infused terpenes. 3D comes in many different strain varieties. This product is for the discerning cannabis user that wants only the purest, high potency product.

---

**X-Trates Full Spectrum:** X-trates Full Spectrum Vape Carts features pure cannabis oil with cannabinoids and cannabis-derived terpenes from a single batch of flower.

# X-Trates — Concentrates

---

**Rosin:** Our rosin is created by simply applying heat and pressure to dried cannabis to create a pure, solventless cannabis concentrate. Made using only heat and pressure, Rosin is a concentrate that retains a full spectrum of its cannabinoid and terpene profile.

---

**Live Sugar:** Our live sugar is made using terpene-rich concentrate derived from an ethanol-based fresh frozen cannabis extraction. It is heated and purged in a vacuum oven under specific conditions that allow for THCA to separate from terpenes and other flavonoids, forming crystals, a.k.a. “sugar.” Live sugar has the consistency of clumps of sugar in a syrupy, honey-like sauce.

---

**Kief:** Our kief deploys the simplest form of extraction — the crystalline trichomes sifted from cannabis flower through a mesh screen. Kief is the sift that is often found at the bottom of a Flower grinder. Kief is composed mostly of the sticky crystal like trichomes that contain the highest concentration of cannabinoids and terpenes.

**X-TRATES**

# KIVA™

WHO WE ARE — Kiva was founded in 2010 with a clear mission - change how the world views and uses cannabis for the better. Frustrated by the inconsistent, low-quality edibles available at the time, a young couple began making chocolate bars out of their Bay Area home kitchen. Today, our award-winning edibles are the most trusted, recommended and sought-after edibles available.

ABOUT CAMINO — While physical roads take you to a physical place, Camino (“road” in Spanish) takes you to a state of mind.

Camino Gummies use custom combinations of THC, CBD, CBN, and natural terpenes to create a highly-tailored edible experience that’s uniquely transporting.

# LOST FARM

## ABOUT LOST FARM

Lost Farm isn't a place, it's a conviction — a belief that propels rare seekers on an endless drive for perfection. For Kiva, it's a vision that the perfect strain and the ideal edible lies just within reach. Here, we immortalize a fresh cannabis plant at harvest and transform it into an amber nectar known as “live resin.” Harmoniously combined with fruit flavors that enhance each singular strain's unique appeal, the result is a full-sensory, ultra-fresh, and extra-strength edibles.

# Slow & Steady — Caribbean Fruit Chews

Slow & Steady edibles feature a unique lineup of Caribbean inspired fruit flavored chews slowly perfected over 40 nights of curing, delivering the most tasteful and steady, elevated experience. Transporting you on a vacation within.

**Sex Papaya:** Get lost in the soft sounds and warm, sparkling waves of the Caribbean Sea lapping at the shore as you get busy with the rich, sweet, and juicy taste of the Sex Papaya Fruit Chews. Known for its creamy flavor with hints of cantaloupe, mango, and pumpkin, the papaya has been a staple of Mesoamerican and Caribbean agriculture for centuries. A 1:1 CBD:THC formulation provides laid-back euphoria from the THC that works in concert with the CBD to boost relaxation and set the mood.

**100mg CBD: 100mg THC per Unit.**

**Party Passion Fruit:** Feel the beat bang and dance the night away while enjoying the uplifting effects of the Party Passion Fruit Chews. Passion Fruit, also known in Latin America and the Caribbean as the granadilla or chinola, has sweet and tart notes similar to kiwi and pineapple that culminate in a vibrant explosion of tropical flavor. This all-THC fruit chew variety will ensure a relaxed and sociable feeling that'll have you vibing with the beat of island classics.

**100mg Thc Per Package**

**Love Lulo:** Sway to the soft notes of Tropical music with your boo thang while you savor the delicious and complex flavor of Love Lulo Chews. Known as the lulo in its native country of Colombia and as the naranjilla in Central America, this “little orange” has an intense and extraordinary taste. It combines citrusy aspects of lemon, lime, and pineapple, and tart flavors of rhubarb and kiwi while still retaining sweetness to mellow it out. The 4:1 CBD:THC dosing of these fruit chews allows you to be clear-headed and uplifted while putting anxiety at ease.

**200mg CBD: 50mg THC per Unit.**

**Relax Soursup:** The smell of the lush tropical flora, the sounds of birds singing, the soft light of sunset across a beach horizon, let your mind bring you to an island far away with Relax Soursop Chews. This unique fruit boasts a custard apple flavor, joined by notes of strawberry, citrus, banana, coconut, and mango to round out its juicy tropical profile. A pure CBD formulation, these fruit chews will leave you at ease like a hammock in the breeze.

**300mg CBD per Unit.**
